

Great Feedback From A Few Of Our 2006 Conference Attendees...

- "Intimate setting made networking easy"
- "It was easy to get to and it was different for me. The sponsors were great!"
- "I liked the idea of the conference and found the people that attended the conference very interesting in the industry."
- "Our Company has been in this industry for over 20 years and this is more on target for the information we need to help our customers."
- "The networking was the best for me. I am a campground resort owner, and I am working toward installing an outdoor water park. The opportunity to learn the process and to meet the industry professionals was priceless."
- "Technical information presented was better than at similar seminars in the past. It seemed that many were reluctant to share their knowledge openly and are less so now. I welcome this open exchange as being healthy for the growth of the industry."
- "Great conference over all. I was surprised to hear that it was the first. Considering that fact, it was very well done."
